**NEW!**

# Air Purge TECHNOLOGY

## NEW CENTRAL-VAC SYSTEM

**MINIMIZE THE HEALTH AND EXPLOSIVE RISKS ASSOCIATED WITH DUST.**

New from Walinga; a Central-Vac System featuring **Air Purge Technology**. This new Central-Vac System features a much smaller footprint, more consistent suction and 'Dumpster Full' Auto Shutdown. The Walinga Central-Vac with Air Purge is designed according to NFPA guidelines.

## DROP THRU AIRLOCK

Cast iron precision machined housing for longer life.

Adjustable tips available in Knife Edged Carbon Steel, Stainless Steel and Composite Rubber.

Electric Motor for separate start/stop operation.

Optional: Super Hardened Airlock

## SUPER HARDENED SRT BLOWER

The Walinga Super Hardened SRT Blower is available in two sizes:

**1100 cfm capacity Model 510**

**1800 cfm capacity Model 614**

Walinga Super Hardened SRT Blowers are manufactured to exacting specifications and quality control standards. The housing, endplates and impellers are precision machined. Gears and bearings are "splash lubricated". For the Central-Vac application, these blowers operate at very low rpms extending the life of the blowers.
