

Sii SPECIALTY INDUSTRIES INC.

Design/Build • General Contracting • Millwrights

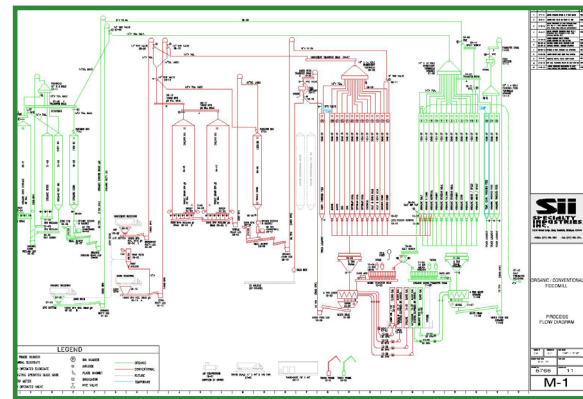

Partners in helping you grow your business

Specialty Industries Inc. is a full-service construction, sales and engineering company serving the needs of the feed, grain, flour milling, wood pelleting and other industries. With over 25 years of experience in facility construction and management, Sii provides start-to-finish service that caters to your budget, operations, schedule and functional specifications. We handle every aspect of your new or renovated facilities, and complete the project with construction schedules and timelines adjusted to your needs.

With decades of experience in construction and in-depth knowledge of industry requirements, we build and renovate facilities that satisfy the production goals of your business and meet specific guidelines set by state and federal authorities. Continuous education through contractor and safety training, and membership with AFIA, GEAPS, IAOM, MABA and others allows us to stay up-to-date with all necessary certifications and building requirements in the field. Our crews understand your process, needs and requirements, and we apply field knowledge to make your facilities safe, efficient and highly functional. We understand the need for speedy delivery and the costs of shutdown during renovations and work with your production to schedule our crews during your regular shutdown hours. To complete your project on time, we develop a detailed timeline and completion schedule according to your budget and deadline. We verify the number of man hours and types of crews required beforehand to ensure each step is carried out without interruption.

With **Sii** you can depend on:

- Experience with the needs of feed, grain, flour milling industries
- Continuous safety and construction training
- Construction schedules tailored to your production
- On-time delivery with strategic project timelines
