

CornadoTM
Grain Spreader
Patent Pending

**DESIGNED
and BUILT
by a fourth-generation
FARMER**

Fits grain bins

**24'-42'
48'-60'
IN DIAMETER**

Ability to handle
up to

**8,000
BUSHELS
PER HOUR**

- Unique design allows for access from the top of the bin.
- Distributes fines and bees wings evenly throughout the bin.
- At this time, the Cornado Grain Spreader is only approved for shelled corn and soybeans.

WATCH the Cornado in Action

**KEY
ADVANTAGES**

**GREASE BEARINGS and
ADJUSTORS** are accessible
from top of the bin

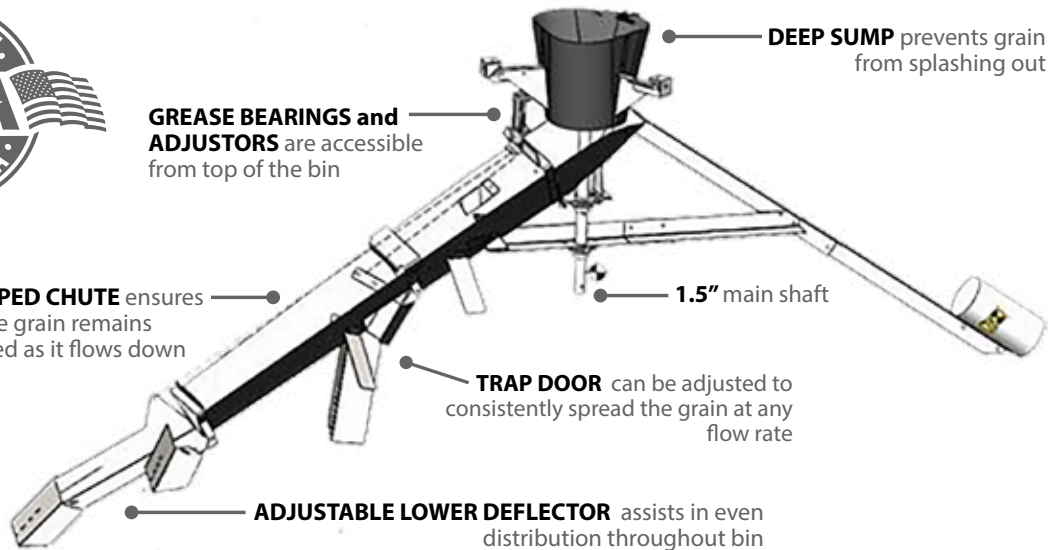

V-SHAPED CHUTE ensures
that the grain remains
centered as it flows down

DEEP SUMP prevents grain
from splashing out

1.5" main shaft

TRAP DOOR can be adjusted to
consistently spread the grain at any
flow rate

ADJUSTABLE LOWER DEFLECTOR assists in even
distribution throughout bin
