DESIGN BUILDERS

CUSTOM DESIGNS

ASI-Industrial is a recognized leader in feed mill design and construction. From small specialized feed mills to large-scale commercialized feed mills, each build is tailored to meet unique requirements.

PROCESS SYSTEMS

Experience with all types of feed milling process systems: flaking, pelleting, texturizing, total mixed ration, extrusion and basic mash.

ELECTRICAL AND CONTROLS

ASI-Industrial self performs electrical design and installation in addition to its feed mill construction, and are well versed in delivering customized solutions for automated control systems.
